

# Conservation Services Group is hiring Energy Specialists

Conservation Services Group (CSG) develops and delivers environmentally responsible energy programs.

CSG offers a comprehensive benefit package and a collegial atmosphere that nurtures individual talents and inspires dedication. CSG is currently hiring for the following position:

**Energy Specialist (multiple positions)** - perform residential energy assessments, educate homeowners on energy efficiency and promote completion of improvements.

## Requirements include:

- BS in building science OR equivalent experience and HS diploma
- BPI certification completion within 6 months of hire
- 5-7 years experience in residential construction, energy conservation, HVAC, building diagnostics, air infiltration reduction and sidewall and attic insulation
- Own transportation and flexibility to work evenings and weekends
- Strong customer service, sales and client relationship management skills, and enthusiasm for energy conservation
- Computer proficiency (office applications)
- Knowledge of computerized building energy modeling or other residential construction software

**You must have the above qualifications to apply.**

To apply for this position, send your resume as a **Word attachment only** to: [careersourcema@gmail.com](mailto:careersourcema@gmail.com), with **Energy Specialist Position** as the subject line.
